### TECHNICAL SKILLS

#### Quality Assurance & Testing

- Manual Testing & Functional Testing
- Black Box Testing
- Test Case Design
- Bug Reporting & Defect Tracking
- UAT Documentation

#### Documentation & Analysis

- Test Case Writing & Test Report Writing
- Workflow & System Documentation

#### Supporting Technical Skills

- HTML, CSS, Javascript
- MySQL (Basic)

#### Tools

- Microsoft Word & Excel
- Visual Studio Code
- Figma

### EDUCATION

#### Universitas Pamulang

Bachelor of Informatics Engineering

2021 - 2025 | GPA : 3.66

- Developed web-based systems following SDLC principles, from front-end interface design to database integration.
- Completed a final project focused on data mining implementation using the Naive Bayes method.

### WORK EXPERIENCE

#### Kumon Education

English Instructor

2024 - Present

- Maintained accurate learning records and student progress documentation with 100% reporting compliance.
- Evaluated student performance and delivered structured progress reports to parents.
- Evaluated student performance and delivered structured progress reports to parents.

#### PT Artha Teknologi Mahakarya

IT Administrator & Quality Assurance Tester (Internship)

2023 - 2024

- Prepared complete SDLC-based project documentation, including project plans, system requirements, workflows, and implementation reports.
- Designed and executed manual Black Box functional testing to validate system functionality.
- Identified, documented, and tracked software defects, contributing to improved system stability.
- Produced structured test reports and communicated findings to developers and stakeholders.
- Participated in project discussions to provide quality improvement recommendations.

### ORGANIZATIONAL EXPERIENCE

#### Nyrita Production House

Talent & Production Crew

2022

- Participated as production crew in a short film project, contributing to a collaborative production process that resulted in the film "Konsekuensi" achieving Top 3 Favorite Short Film at the Genflix Short Film Competition.
